

Sinai Health System and University Health Network Proudly Present:

2020 TORONTO GERIATRICS VIRTUAL UPDATE COURSE

ZOOM WEBINAR | FRIDAY OCTOBER 30TH

PROGRAM OVERVIEW

With the ageing of our population, there exists a growing demand for high quality accessible continuing medical education in Geriatrics.

We invite you to attend our eighth annual Geriatrics CPD Course which has been designed to provide front-line practitioners with the latest practical and evidence-based knowledge they need to better manage the care of their older patients.

This year we have adapted the format of our course to offer a virtual one day program which will feature high-quality interactive lectures by leading faculty from the University of Toronto and beyond. The course will focus on the assessment and management of geriatric syndromes and common issues that arise in the care of an older patient, with a specific focus on how to provide care during a infectious disease pandemic

PROGRAM OBJECTIVES

After this educational conference, participants will be able to:

- Recognize and assess common geriatric syndromes in older patients.
- Manage common single and multifactorial medical issues in older patients; overall and particularly during the COVID-19 pandemic
- Establish an approach to address the common and often inter-related medical and social issues that occur within older patients.

PROGRAM HIGHLIGHTS

- Interactive Lectures
- Concurrent Breakouts
- Relevant Infectious Disease Topics

TARGET AUDIENCE

Family Physicians, Nurse Practitioners, Nursing Professionals, Therapists, Social Workers, Geriatricians, Internists and other Professionals working with older patients.
